Guidelines for abstract submission

General

Abstracts can be submitted via the online abstract submission system on the congress website.

We will accept standard/traditional abstracts

Abstracts should be prepared strictly according to the following instructions. Changes can not be made after the abstract already submitted.

Content

• Abstracts should include:

- brief introduction to the research question

- aim(s) of the study

- methods used including statistical analysis methods

- summary of results containing real data and the outcome of statistical analyses

- conclusions

• Abstracts must report on high quality research in the field of Psychiatry and/or Psychiatric Treatment that has not been published whole elsewhere.

• The statements, particularly in the conclusion section, should be balanced.

• No abbreviations or trade names are allowed in the title. However, the generic name may be used.

• A disclosure on potential conflicts of interest (acknowledgement of funding) is requested when submitting an abstract.
